## How to use the bicycles with the HeBi card

You can rent the bicycle directly at the dock, next to the bicycle of your choice with the help of the card. Touch the card to the HeBi card reader on the side of the dock as you can see in the photograph. You will hear a tone once and see a flashing light signal, the lock holding the bicycle will open. The light signal will flash for 20 seconds, in that time you can take the bicycle out. After this period it will re-lock. If you can see a flaw on the bicycle (vandalism, flat tyres, damages, etc.), you can place the bicycle back into the dock. The bicycle is equipped with a GPS system.

## The use of the bicycles

The bicycles can be used within the administrative boundaries of the town. If you want to stop and lock the bicycles, use the lock that is built in the bicycles.

If you lock the bicycle, you can take the key that belongs to the lock with you, if you reopen the lock, the key can not be removed. The key can be found on the fore-part of the bicycle..
